---

Thank you for the level of detail in the draft! It should help us keep everyone informed and create an excellent event archive. I would like to make a few suggestions... and have put them in track changes in the attached document. Please take a look. We can discuss how we can help keep it updated from this point on if everyone could send in their input for the document.

We can talk more about how we want to organize information flow tomorrow. Thanks again.

**Subject:** FW: Issue Brief format

OK, Cyndi. Here is the first cut on an initial Issue Briefing that covers things from the first Incident Notification last Thursday to basically this morning. I have copied the other folks from ATSDR that have been involved so far, so that they can correct any misconceptions I may have provided.

I have attached the Coast Guard briefing for the Secretary of Homeland Security that reflects the situation as of 4 am this morning. There are a copy of slides on the trajectory in the middle that would be a nice summary of the event, but, since the EOC distributed the whole thing this afternoon, I thought you might as well pick and choose what you want to highlight.

**Subject:** Issue Brief format

Rich... here's the format we use to begin an issue brief and event archive. Let me know if you have any questions or need us to help keep it updated once you get the initial one built out.

Thanks.
